Subject: FW: Need your input- Applicability Determinations to be announced in an upcoming Federal Register Notice
Attachments: FR Notice for Fall Update -1-18-2018.docx

FYI – The attached is a draft FR with a list and abstracts for determinations that are to be added to the ADI. I thought you might have an interest.

Take Care,

All,

The Office of Compliance (OC) will be publishing a next Federal Register Notice (FRN) announcing recently issued Agency applicability determinations as well as alternative monitoring decisions and regulatory interpretations ("AD documents"). We appreciate your assistance in helping us to collect these AD documents and in providing the brief abstracts via the Applicability Determination Index (ADI) intranet interface (AIS).

Prior to the FRN publication, senior management would like to be aware of any AD documents included in the attached FRN that may have a likelihood of being challenged on its substance or may be viewed as controversial by the regulated community or the public.

Please review the attached FRN document by Tuesday, January 30 and let me know if any of the responses/abstracts that you submitted may pose such concerns and should be brought to management attention prior to publication. If additional review time is needed or if you have any questions, please feel free to contact me. Please note that if I have already reached out to you on an AD document during the earlier stage of the OC QA/QC review process, I will still need a response to this request.

Regards.
